Instrument Lesson Plan Idea

Grade Level: K/1

Type of Lesson: Instrument

Title: Invent Your Own Music

Source: <https://www.teachingexpertise.com/classroom-ideas/music-activities-for-elementary-students/>

Description: When beginning to explain music theory and composition to children, it helps to start with creativity and collaboration. Assign different sounds to a symbol (triangle, circle, square) and write a pattern on the board. When you point to a symbol or line of symbols students can associate the shape with the sound.

Curriculum Connection: Organization and patterns. (Math).

Literacy Connection: Children can keep track and write down their symbols this time and use a different one on a different day.

Music Standards utilized: 3.MU:Cr3.2
